Safety Signage

Aspida carries a comprehensive range of safety signage for virtually any situation. All signage either complies with all current local legislation or is accepted as in common use and meets or comply with international legislation ISO3864-2 with bi-lingual of Bahasa Malaysia & English textures.

Although a lot of signs are visually similar, it is the test of time that will tell how well they are made. Our quality safety sign work for you, year after year, conveying safety instruction and information for a safe workplace without needing replacement.

Information on International Standard 1503864-2. Safety colours and safety signs.

There is a need to standardize a system of giving safety information that relies as little as possible on the use of words to achieve understanding. Continued growth in international trade, travel and, more recently in the extensive mobility of labour requires a common communications method for safety information.

This International Standard prescribes the use of specific colours, geometric shapes and graphical symbols for the design of safety signs to be used as an integral part of any accident prevention, emergency provisions and risk reduction programme.

Health and Safety Regulation on Safety Signs and Signals.

Permanent signboards must be used for signs relating to prohibitions, warnings and mandatory requirements and the location and identification of emergency escape routes and first aid facilities.

Signboards and/ or a safety colour must be used to mark permanently the location and identification of fire-fighting equipment.

Signboards, including fire safety signs, are designed.

Safety Colour: BLUE

Meaning or Purpose: Mandatory

Instruction & Information: Specific behaviour or action. e.g. wear personal protective equipment.

Intrinsic Features: Round shape; white pictogram on blue background; blue part to be at least 50% of the area of the sign.

Safety Colour: YELLOW

Meaning or Purpose: Warning

Instruction & Information: Be careful; take precautions; examine

Intrinsic Features: Triangular shape; black pictogram on yellow background with black edging; yellow part to be at least 50% of the area of the sign.

Safety Colour: RED

Meaning or Purpose: Prohibition/Danger alarm

Instruction & Information: Dangerous behaviour; stop; shutdown; emergency cut-out; devices; evacuate.

Intrinsic Features: Round shape; black pictogram on white background; red edging and diagonal line; red part to be at least 35% of the area of the sign.

Safety Colour: RED

Meaning or Purpose: Fire fighting

Instruction & Information: Identification & location

Intrinsic Features: Rectangular or square shape; white pictogram on red background; red part to be at least 50% of the area of the sign.

Safety Colour: GREEN

Meaning or Purpose: Emergency escape; first aid, No danger.

Instruction & Information: Door; exits; escape routes equipment and facilities. Return to normal.

Intrinsic Features: Rectangular on square
