# K2 RANGE

## Designed for Rugged Industrial Environments

Designed for craggy, foundry, or quarry work environments, K2 range offers protection and comfort that flows from heel to toe. The rubber shoe sole was designed to provide excellent resistance to extreme temperatures (up to 300°C), oils, acids or alkalis, without compromising the lightness and comfort. All K2 models come with a contoured EVA cushion insole that provides excellent moisture absorption properties and shock cushioning characteristics for greater foot comfort and long-lasting freshness.

Light and flexible, suitable for craggy, foundry and quarry environment

Penetration resistant (optional)

Resistance to extreme temperature up to 300°C

Resistance to oils, acids or alkalis

SRA slip resistance according to EN ISO 20345:2011 standard

### Contoured EVA cushion insole

- Superior soft material
- Excellent shock absorption
- Lightweight & moisture absorbing breathable lining
